

LED-Cindy Pro

LUMINAIRE FOR WORKSPACES

Versatile luminaire for workspaces

IP44

Operating Conditions

Typical applications for the LED-Cindy Pro include worktops that require a slim light fixture. With a louvre the luminaire is splash-proof (protection class IP-44).

Installation and maintenance

The LED-Cindy Pro can be installed on ceiling or wall surfaces. Corner mount (45°) is also possible. With optional through-wiring LED-Cindy Pro is also suitable for corridors and row-mounting. Depending on your lighting needs, the housing can be combined with an acrylic lens with either a clear ribbed or opal surface. Valtavallo LED tubes are easily installed and replaced in the luminaire without any electrical work.

LED

Lifetime

The LED-Cindy Pro luminaire is manufactured in Finland. For maximum lifetime, it can be equipped with extremely long-lasting Valtavallo LED tubes.
