

Höganäs 

“ Höganäs AB, one of the world’s leading manufacturers of iron-based metal powders, began its LED lighting project in 2012. The goal of this project was find a solution utilizing LED lighting in challenging industrial environment. After testing products from several LED lighting suppliers, Höganäs selected Valtavalon Oy as its supplier of LED tubes. LED tubes manufactured by Valtavalon Oy proved to be the most durable and energy efficient LED tubes available in the market.
